

Shopware Integration with ActiveCampaign

ActiveCampaign >

Thank you for choosing to integrate Shopware with ActiveCampaign!

To ensure you have comprehensive guidance, we have created a detailed step-by-step configuration manual.

This manual will guide you through the entire integration process, starting from the initial preparations to successfully connecting Shopware and ActiveCampaign.

We highly recommend carefully reviewing the configuration manual and following the instructions diligently.

Additionally, we have a [YouTube video](#) that provides a detailed tutorial on the integration process, walking you through each step.

If you encounter any difficulties or have any questions, our [German-speaking support team](#) is available to assist you for a duration of 30 minutes during the integration setup.

Please note that additional costs may apply for any extra support required.

For further information regarding pricing and to schedule support services, please reach out to [our support team](#).

Configuration manual:

Step 1: Go to the Shopware administration panel and navigate to "Extensions" → "My Extensions." Click on "Upload Extension" and select the ActiveCampaign integration zip file. Wait for the upload to complete.

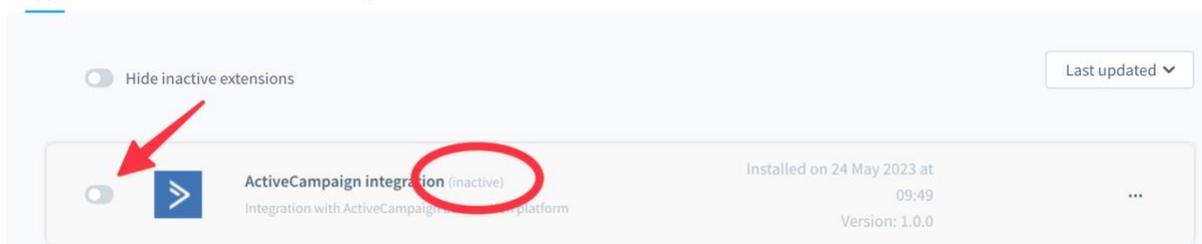

Before proceeding, please note that installing extensions from outside the Shopware app store may pose certain risks. Confirm that you understand and accept these risks.

Step 3: Now, switch to your ActiveCampaign account and go to "Settings." Choose "Developer" and then select "API Access."

Copy the API URL and the API key provided in the ActiveCampaign developer settings.

Step 4: Return to your Shopware account and paste the copied API URL into the corresponding field. Click "Save" to configure the integration.

Step 5: Navigate back to the "My Extensions" section in Shopware and click on the ActiveCampaign extension to open it.

Verify that your ActiveCampaign API configuration is set correctly.
Return to ActiveCampaign and go to the "Integrations" section to confirm that the integration is visible.

Step 6 Go back to Shopware and click on "Connect E-commerce Connection." Check the status to ensure it is set correctly.

To import your list from ActiveCampaign, go back to the "My Extensions" section in Shopware.

ActiveCampaign integration

ActiveCampaign integration status

ActiveCampaign API configuration status	Set correctly	
E-commerce connection status	Set correctly	Disconnect
Tracking status	Enabled	
Number of lists imported from ActiveCampaign	10	Import lists

Step 7: If you want to add your customers to a list, you can choose a list.

You can select a newsletter list.

Scroll down further to the E-Commerce configuration. If you want to track abandoned carts, you can set up customer tracking and add the ActiveCampaign tracking ID.

Step 8: Go back to your ActiveCampaign account and navigate to "Website" → "Site Tracking". Copy the tracking code and paste it into your Shopware ActiveCampaign tracking ID.

The screenshot shows the ActiveCampaign website tracking configuration page. The left sidebar has 'Website' selected, and 'Site Tracking' is highlighted. The main content area is titled 'Tracking' and includes a table of website pages, an 'Add Website URL' section with an input field and an 'Add' button, and a 'Tracking Code' section with a 'Press ⌘+C to copy' button. Red arrows point to the 'Site Tracking' menu item, the 'Add Website URL' input field, and the tracking code block.

Step 9: Back to your Shopware extension: If you want to enable the E-Commerce module, simply set it to "active" and click "Save".

You can verify in the Extensions section to ensure that everything is correctly configured. At this point, you will have access to all the data and information regarding your customers and their orders in ActiveCampaign, along with comprehensive tracking information from the Shopware shop.

The screenshot shows the 'ActiveCampaign integration' configuration page. The page title is 'ActiveCampaign integration' by Marcin Kadziolka. The main section is 'ActiveCampaign e-commerce configuration'. It contains four settings: 'Abandoned Cart period of time' set to '1 hour', 'Tracking of customers enabled' (checked), 'ActiveCampaign's tracking id' set to '111222333', and 'E-commerce module enabled' (checked). A 'Save' button is visible in the top right corner.

If you have any further questions regarding the integration, please don't hesitate to reach out to our [German support team](#).
